SOUTH OMO ZONE ADMINISTRATION

A message from the Chief Administrator

“

South Omo is open for investment that grows with our communities. We offer fertile land, abundant water and a people with a proud heritage. We ask only that you build with us, not around us.

The Lower Valley of the Omo is a UNESCO World Heritage Site and holds the oldest known fossils of our own species. We are proud guardians of that heritage, and of Mago National Park, the Omo River and the communities who have lived alongside them for generations.

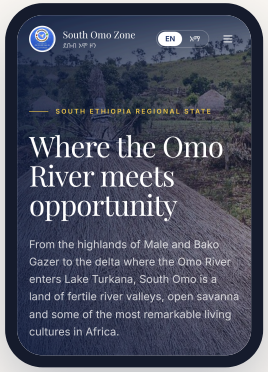

Our priority is development that our communities can see and share in: irrigated agriculture, livestock and dairy, agro-processing, fisheries and responsible tourism. We invite investors and partners to work with our woredas, to consult with our communities and to create jobs for our young people.

WHY SOUTH OMO

Where the Omo River meets opportunity

From the highlands of Male and Bako Gazer to the delta where the Omo River enters Lake Turkana, South Omo is a land of fertile river valleys, open savanna and some of the most remarkable living cultures in Africa.

HOW TO INVEST

1. **Explore.** Review sectors and woreda opportunities on this portal, or request a profile from the investment desk.
2. **Consult.** Meet the Zone Investment Office and the woreda administration to discuss land, water and access.
3. **Visit the site.** We arrange a field visit and introduce you to the host community.
4. **Apply & license.** Submit your project proposal.
5. **Launch.** Agree a community development plan, recruit locally and begin operations with our follow-up support.

> We ask every investor to consult communities, hire locally and protect the Omo River and Lake Turkana.
